RELAXATION

STARTS HERE

The Rheem® *Prestige*® Series Package Heat Pump is ideal for single-family homes, condominiums or lofts where space is limited. Our all-in-one high-efficiency heating and cooling solution keeps all the equipment outside—while you enjoy quiet comfort inside, season after season.

***Prestige*® Series
Package Heat Pump Model RQRM**
Cooling Efficiencies up to: 16 SEER / 13 EER
Heating Efficiencies up to: 8.5 HSPF

(All models except for RQRMA036)

High-Efficiency Comfort and Savings

Saves energy and money with high efficiency 16 SEER cooling and up to 8.5 HSPF heating. Take a step up in comfort and savings with quiet, dependable operation for your entire family.

Quiet, Durable and Dependable

The Copeland Scroll™ compressor delivers proven performance and is backed by our conditional 10-year parts warranty and 10-year compressor warranty.² Its advanced motor design protects from overheating and ensures quiet, dependable operation.

Unique Features Inside and Out

The galvanized steel cabinet, grille / fan motor mount and full louvered coil protection offer total protection from weather extremes while adding to the life of your unit.

Our Philosophy of Innovation

We meticulously evaluated every detail of this product from every angle, considering the work that goes into installing and servicing our products, as well as how we can deliver the very best homeowner experience. And then we take it a step further. That's 360°+1. And that's why you can count on your heat pump to bring you and your family years of comfort.

Count on Staying Comfortable in Every Season

The Rheem® *Prestige*® Series Package Heat Pump offers unique features that make it efficient, quick to install, easy to service and dependable. Whether installed next to your home or on the roof of your loft, you can count on enjoying quiet and affordable comfort for years to come.

Durable Construction

Our galvanized steel cabinet protects your Rheem unit from the elements, helping to reduce any maintenance expenses—plus, its slim design occupies less room in your yard and installs with a flush fit against your home. Our motor mount helps protect your fan motor against damage from the elements, extending its service life.

Protective Barrier

Unique in the industry, each Rheem unit features full-louvered protection of the sensitive condenser coil—offering total protection against vandalism and weather extremes, while adding to the longevity of your unit.

Low Corrosion, Low Sound

Constructed from sturdy 18-gauge G-90 sheet metal, the base rails elevate the bottom of the unit off the ground, protecting from corrosive condensation and providing air circulation around the unit. The combination of the durable cabinet, large outdoor fan, Copeland Scroll™ compressor and elevated base pan all contribute to quiet, dependable operation.

Fast, Accurate Installation and Maintenance

If maintenance is ever required, we keep service technicians in mind. Four service panels provide your technician with easy access to all internal components—so service time and expense are kept to an absolute minimum.

Benefits At-A-Glance
